Shaw Athlete Equipment Purchases

It is the sole responsibility of the student athlete to purchase items deemed necessary by the coach of all sporting events. Any items that are required by the coach immediately become the responsibility of the parent(s). This includes equipment, supplies, and possibly uniforms. When the student becomes a member of a team, the parent(s) must purchase those items that are required before any items are distributed to them. The uniform distributed by the _____ Team is _____.

This equipment is valued at \$_____ and must be returned at the end of the season, undamaged, or the student must pay \$_____ to replace the lost/damaged equipment. It should also be known that if a student transfers to another school, they **will not** be cleared until **all** monies are paid and/or uniforms are collected.

_____ Student

_____ Parent

_____ Date

Students and parents are to sign a copy before participation.
Coaches are to keep this copy on file for each sport.
